WESTERN OCCUPATIONAL HEALTH CONFERENCE

SEPTEMBER 11-14, 2019
SHERATON HOTEL & MARINA BAY
SAN DIEGO

*Coming Home:
Recharge and Succeed*

WOHC IS PROVIDED BY

WESTERN OCCUPATIONAL & ENVIRONMENTAL
MEDICAL ASSOCIATION

The 63rd Annual Conference of the
Western Occupational & Environmental Medical Association

Akbar Sharip MD, MPH, FACOEM

Dear Friends and Colleagues,

We invite you to join us for the 63rd Annual Western Occupational Health Conference (WOHC) on September 11-14, 2019 at the Sheraton Hotel & Marina, San Diego.

Building on previous years' successes, our WOHC Planning Committee is set to deliver another outstanding conference with high-quality education providing the necessary tools for your professional advancement. WOEMA is a home, family, community, and haven for Occupational Health practitioners. Our WOHC theme this year: "Coming Home: Recharge and Succeed" signifies our goal that you will reap the benefits of being a part of our WOEMA family and that WOHC will provide you with renewed energy, knowledge, and connections to propel you even further in your OEM career and your personal growth.

The practice of Occupational Medicine, as a specialty, demands a lot from each of us. Many of us find ourselves facing challenges we never anticipated would be part of practicing medicine, yet here we are serving in diverse roles as corporate medical directors, private practitioners, researchers, clinicians, medical consultants, expert reviewers, etc. In order to meet the demands that come our way, we must stay connected to one another for insights to best practices, the latest on guidelines and regulations, OEM resources, new techniques, and specialty trends.

In addition to taking full advantage of the latest OEM topics offered in our WOHC plenary sessions, we also invite you to take part in post-graduate sessions: Power Pharma and Power Ortho. To meet your certification needs, you can choose from a Commercial Driver Course, a Workers' Compensation Certificate Course, and an Occupational Medicine Board Exam Review Course. Unique worksite tours offer opportunities to explore the USS Midway Aircraft Carrier Museum and the Solar Turbines machinery plant, both based in San Diego. And to add fun and flavor to your conference experience, we invite you and your guests to join us for our Friday night Signature Event: "Fiesta on the Bay" where you'll enjoy an evening with colleagues and friends in beautiful San Diego. The evening includes music, cocktails, a stunning sunset from the waterfront patio, dancing, and tantalizing tastes of local cuisine.

For our early career physicians, WOEMA is pleased to offer scholarships to residents seeking to attend WOHC and present a poster, and residents may attend the Commercial Driver Course free of charge.

OUR MISSION

The educational mission of the Western Occupational & Environmental Medical Association (WOEMA) is to change the way our constituents practice medicine such that the health and well-being of their patients improve. Specifically, WOEMA seeks to prevent occupational illness and injury and expedite patient recovery time from injury. Our continuing medical education (CME) programs strive to improve our learners' clinical decision-making skills in order to improve overall worker health. The WOEMA Board of Directors and the WOEMA Committee on Education believe that CME is the pathway to achieving the Association's mission. Our intention is to provide CME that is timely, dynamic, engaging, and accessible in order to support and inspire life-long learning.

**WEDNESDAY, SEPTEMBER 11, 2019
PRE-CONFERENCE COURSE**
**8:00 AM – 5:30 PM // OCCUPATIONAL MEDICINE BOARD
EXAM REVIEW COURSE (FULL DAY)**

New this year, WOEMA is offering a one-day, condensed eight-hour refresher course to prepare graduating and current residents to take the ABPM Occupational Medicine Board Examination, as well as for established Occupational Medicine physicians to update their knowledge ahead of the recertification exam. John Meyer, MD and Nimisha Kalia, MD will provide a teaching session and review on clinical, administrative, and programmatic aspects of occupational medicine that appear on the ABPM examination, and offer

you the chance to assess your familiarity with the major areas of occupational medicine practice. Whether you are taking the exam for the first time, or are updating for your ten-year re-certification, this course can provide you with the right material to enable you to feel confident in your OM expertise.

Fees: ACOEM Member: \$495; Non-Member: \$695; Resident/Retired/Student Member: \$295

**THURSDAY, SEPTEMBER 12, 2019
POST-GRADUATE SESSIONS AND WORKSITE TOURS**
**8:00 AM – 4:30 PM // COMMERCIAL DRIVER
CERTIFICATION COURSE
Michael Berneking, MD;
Anne-Marie Puricelli, MD**

This is a course designed to meet the requirements for the FMSCA examiner certification process. The information in this course, coupled with the syllabus is designed to prepare attendees for the certification testing. It will further act as a reference to those conducting DOT examinations.

**8:00 AM – 11:00 AM // WORKSITE TOUR (WS - 1) –
SOLAR TURBINES**

Solar Turbines, headquartered in San Diego since 1927, designs and manufactures industrial gas turbines for onshore and offshore electrical power generation, for marine propulsion and for producing, processing and transporting natural gas and oil. This tour will include an overview of the production and assembly facility and will touch on Solar Turbine's role in offshore readiness and compliance. Watching a 15-minute video on security & safety will be required of all tour participants prior to the tour. Attendees who do not complete the safety video before the tour will not be granted access on the premises, nor will refunds be given.

**8:00 AM – 11:00 AM // POST-GRADUATE SESSION (PG - 1) –
POWER ORTHO -
WE'VE GOT YOUR BACK
Brian Davis, MD**

Join us for WOHC 2019's annual Power Ortho course as we learn essentials of spine injuries from UC Davis Sports Medicine faculty. Attendees will learn the latest evidence in diagnosis and treatment of spinal injuries. Early registration is encouraged for this popular course that includes plenty of time for questions with the experts and a hands-on skills workshop. This course is an annual favorite for attendees as it provides a unique focus on occupational injuries in an intimate learning environment.

**1:00 PM – 5:00 PM // CA WORKERS' COMPENSATION
CERTIFICATE COURSE**

Here you will learn the basics of CA Workers Compensation. Tailored to all who work, or have interest in California Workers' Compensation, the course will describe the structure of the system, the various parties, and the role of the primary treating physician with an emphasis on foundational knowledge to practice Workers Compensation effectively in California. The materials are based on the California Division of Workers' Compensation Physicians' guide with an emphasis on the practical concepts for the treating physician. In addition to MDs/DOs, the course is open to mid-level health care providers (PA, NP, PT, OT) who are involved in many of core elements of medical practice and ongoing patient care. While the course is focused on California, anyone with an interest in workers' compensation is welcome to attend and expand their understanding of this benefit system. Fee: \$295 (all attendees)

**1:30 PM – 4:30 PM // WORKSITE TOUR (WS - 2) –
USS MIDWAY**

USS Midway is an aircraft carrier named after the Battle of Midway. Midway was commissioned in 1944, a week after the end of World War II. She was the largest ship in the world until 1955. The tour highlights the below decks working spaces, the hangar, and flight deck with 30 restored aircraft that you can explore. This tour will leave you with a lasting impression of recent military history, as well as shipboard life and the many hazards surrounding sailors at sea.

**1:30 PM – 4:30 PM // POST-GRADUATE SESSION (PG - 2) –
POWER PHARMA ANALGESIC
STRATEGIES TO TREAT MUSCLE PAIN
Lori Reisner, PharmD, FCSHP;
Gurkirpal Singh, MD**

This course is a comprehensive review of medications and modalities used to treat pain located in muscles. Participants will gain a deep understanding of the known pathophysiology of pain and mechanisms of action of the strategies used to treat it.
